MODULE 1 – GATHERING AND PROCESSING INFORMATION

The paper consists of FOUR questions.

You will be given FIVE minutes to read through the questions silently.

The examiner will read an extract twice.

You must make notes while you listen to the readings.

You will be given 20 minutes to respond, in writing, to the questions.

In ONE sentence of no more than 30 words, state the MAIN purpose of the speaker.

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

[3 marks]

Give TWO pieces of information you used in arriving at the main purpose.

(i) ________________________________________________________________

(ii) _______________________________________________________________

[2 marks]

What is the MAIN device used by the speaker to achieve his purpose?

MAIN device _______________________________________________________

[1 mark]

Give THREE examples of the use of this device.

(i) ________________________________________________________________

(ii) _______________________________________________________________

(iii) ______________________________________________________________

[3 marks]
3. Comment on the effectiveness of ANY TWO examples in 2 (b) above in relation to the speaker’s purpose.
